**Speech Therapy, Assistive
Devices and Accessories**

ANNEXURE J

PICTURE CATALOGUE

ASSISTIVE SOLUTIONS: END-USER

1. Literacy, Low-Tech Communication and Enabling Tools

Item	Title	Description
1.1	Accessible literacy	Various types of literacy strips with fasteners and containers where required
1.2	Low-tech communication tools	Picture and activity communication tools, including portable and wrap-around types, and velcro fasteners
1.3	Enabling devices	Various low-tech motor and visual enabling tools, including pointers, magnifiers and braille devices

2. Communication and Assistive Devices

Item	Title	Description
2.1	Augmentative and alternative communication devices	Various types of non-computer-based augmentative and alternative communication devices
2.2	Assistive listening and text-to-speech	Various audio and voice amplifiers and text-to-speech solutions
2.3	Magnification devices	Digital magnification devices, including portable and desktop-type
2.4	Access and autonomy	Various devices to enable computer access, autonomy and learning for people with physical disabilities, including labelling, navigation, warning and music

3. Assistive Accessories

Item	Title	Description
3.1	Assistive switches	Various types of assistive switches
3.2	Mounting solutions	Various types of assistive mounting solutions, including arms, plates, clamps and stands
3.3	Batteries	Various types of rechargeable and disposable batteries, and associated chargers

4. ICT-based Devices and Solutions

Item	Title	Description
4.1	Tablet computers	Tablet devices for assistive solutions
4.2	Tablet/software bundles	Various bundles of tablets and assistive software
4.3	Alternative computer input	Various types of alternative computer input devices, including alternative keyboards, pointing devices, eye-tracking and OCR
4.4	Eye-tracking bundles	Various eyetracker/software bundles and eye-tracking solution bundles
4.5	Visual support aids	Various types of information access solutions for visually impaired users, including braille devices, smart devices and player/recorders
4.6	Cases and mounts	Frames, carry cases and mounts for tablet devices

5. Assistive Software

Item	Title	Description
5.1	Communication software	Various types of software to support people with speech disabilities
5.2	Vision support software	Various types of software to support information access for low-vision users
5.3	Learning and development software	Various types of software to support literacy and skills development

ORAL/VOICE THERAPY PRODUCTS

6. Feeding and oral motor

Item	Title	Description
6.1	Feeding and oral motor	Various feeding and oral motor-related products

7. Laryngectomy

Item	Title	Description
7.1	Laryngectomy	Various laryngectomy-related products

8. Tracheostomy

Item	Title	Description
8.1	Tracheostomy	Various tracheostomy-related products

GENERAL THERAPY RESOURCES

9. Assessment tools

Item	Title	Description
9.1	Assessment tools	Various standardised assessment tools and resources

10. Therapy Resources

Item	Title	Description
10.1	Speech therapy resources	Various speech therapy-related resources
10.2	Other therapy resources	Other assistive therapy-related resources

SERVICES

11. Assistive Services

Item	Title	Description
11.1	Assistive hearing services	Services for hearing-impaired users, including captioning and sign interpreting, and other related services for people with disabilities
11.2	General assistive services	General services to people with disabilities, including consultation, training and support

2-40alt2	Sensory Solutions	Handheld Magnifier with Speech, 7" touch Performs digital magnification and contrast of printed materials; Built-in camera and 7" display; High definition autofocus camera; Up to 18x magnification; LED lighting; Colour contrast options; Freeze image function; Built-in reading stand; Distance viewing; Text to speech; Lightweight; HDMI output; Rechargeable battery	Zoomax Snow 12 with Speech	12" touch screen, up to 19x magnification, built-in reading stand and detachable and foldable stand, full page text-to-speech (OCR)	
2-41	Editmicro Global	Mouse-type Digital Magnifier Performs digital magnification and contrast of printed materials; Support for external display or computer preferred; Adjustable magnification and colour contrast options	Cobolt Systems Ltd Mouse Magnifier		
2-42	Editmicro Global	Handheld Monocular View and magnify objects in the near distance as well as close up; Adjustable magnification and colour contrast options; Large field of view; Rechargeable battery	Humanware Explore 8		
2-43	Editmicro Global	Wearable Digital Magnifier Lightweight head-worn glasses that performs digital magnification and contrast; High-speed autofocus camera, adjustable magnification; Brightness, colour contrast, outline and freeze functions; Rechargeable battery	eSight Digital Glasses		
2-43	Sensory Solutions	Wearable Digital Magnifier Lightweight head-worn glasses that performs digital magnification and contrast; High-speed autofocus camera, adjustable magnification; Brightness, colour contrast, outline and freeze functions; Rechargeable battery	Zoomax Acesight	up to 15x magnification, field of view 45 degree	
2-44	Editmicro Global	Large Display Calculator Large display and buttons; Supports basic arithmetic operations, percentage, square root, nth power; Memory keys; Battery-operated	Cobolt Systems Ltd Talking Calculator	A4 Size	

Item	Supplier	Specification	Product	Comment	Product Image
2-45	Editmicro Global	Advanced Large Display Calculator Large display and buttons; Supports basic arithmetic operations as well as Scientific or Financial functions (separate models); Battery-operated	Sight Enhancement Systems Sciplus Sci2200	Sciplus SCI2200 can only perform scientific functions	
2-45	Sensory Solutions	Advanced Large Display Calculator Large display and buttons; Supports basic arithmetic operations as well as Scientific or Financial functions (separate models); Battery-operated	CareTec Double Check XL	financial and conversion functions, memory keys, spoken functions	
2-45alt	Sensory Solutions	Advanced Large Display Calculator Large display and buttons; Supports basic arithmetic operations as well as Scientific or Financial functions (separate models); Battery-operated	CareTec Platon XL	financial and conversion functions, scientific functions, probability theory and statistics, memory keys, spoken functions	
2-46	Editmicro Global	Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations, percentage, square root, nth power; Memory keys; Adjustable volume; Earphone output; Battery-operated	Cobolt Systems Ltd Talking Calculator	Desktop	
2-46	Inclusive Solutions	Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations, percentage, square root, nth power; Memory keys; Adjustable volume; Earphone output; Battery-operated	Attainment: Talking Calculator	Paper-based Training recommended	
2-47	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Orbit Research Orion TI-30XS	Scientific functions but no graphing functions	

Item	Supplier	Specification	Product	Comment	Product Image
2-47	Sensory Solutions	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	CareTec Double Check	financial and conversion functions, memory keys	
2-47alt1	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Orbit Research TI-84+	Financial functions only	
2-47alt1	Sensory Solutions	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	CareTec Platon	financial and conversion functions, scientific functions, probability theory and statistics, memory keys	
2-47alt2	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Caretec Platon XL Talking Scientific Calculator	Scientific functions, but no graphing functions	
2-47alt2	Sensory Solutions	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Orbit Research Orion TI-30XS	financial and conversion functions, scientific functions, probability theory and statistics, memory keys	
2-47alt3	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Caretec Double Check Financial Calculator	Scientific and Graphing functions	

Item	Supplier	Specification	Product	Comment	Product Image
2-47alt3	Sensory Solutions	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Orbit Research Orion TI-84 Plus	graphing calculator with audio, speech and haptic feedback, scientific, statistical and financial functions, memory keys	
2-47alt4	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	Sight Enhancement Systems Sciplus SCI2300 Talking Scientific Calculator	Scientific and Graphing functions	
2-47alt5	Editmicro Global	Advanced Talking Calculator Calculator with audio and speech output. Supports basic arithmetic operations as well as Scientific, Financial or Graphing functions (separate models), Adjustable volume; Earphone output; Battery-operated	SCI 2500 talking Calculator	Scientific but no graphing functions	
2-48	Editmicro Global	Talking Watch Talking watch for low-vision users. Bold high-contrast hands and numbers; Speak time and date; Alarm setting; Medium and large sizes available	Cobolt Systems Ltd - Talking Large Faced Watch - W16		
2-48	Sensory Solutions	Talking Watch Talking watch for low-vision users. Bold high-contrast hands and numbers; Speak time and date; Alarm setting; Medium and large sizes available	Sensory Time		
2-49	Sensory Solutions	Optical Character Recognition (OCR) Device - battery-powered Standalone device that captures hard-copy documents and converts them into electronic text; Reads printed text aloud using text-to-speech; Several male/female voices available; Displays magnified text in high-contrast colours on built-in screen; Portable and lightweight; Rechargeable battery	Freedom Scientific omniReader

Assistive Accessories

Item	Supplier	Specification	Product	Comment	Product Image
3-1	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian Smoothie 75		
3-1	Inclusive Solutions	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian: Smoothie Switch, 75mm, Red / Yellow / Green / Blue	Paper-based /Online Training recommended	
3-1alt1	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Specs Switch		
3-1alt2	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Buddy Button		
3-1alt3	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Jelly Bean Twist		
3-1alt4	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Trigger Switch		

Item	Supplier	Specification	Product	Comment	Product Image
3-1alt5	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian USB Switch	Not available in multiple colours but works well with glassouse, most esepcially for learners with arthrogryposis	
3-1alt6	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	PikoSystems Piko Button 30		
3-1alt7	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	PikoSystems Piko Button 50		
3-1alt8	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	PikoSystems Piko Button Waterproof 30		
3-1alt9	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	PikoSystems Piko Button Waterproof 50		
3-1alt10	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Kajo KajoButton Mini Switch (25mm)		

Item	Supplier	Specification	Product	Comment	Product Image
3-1alt11	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Kajo KajoButton Standard Switch (50mm)		
3-1alt12	Editmicro Global	Small assistive switch Small (<75mm), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	GlassOuse Finger Switch	Built-in interface - no external switch interface required	
3-2	Editmicro Global	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian Simplyworks Switch 75	Must be paired with receiver	
3-2	Inclusive Solutions	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian: iSwitch	Paper-based /Online Training recommended	
3-2alt	Inclusive Solutions	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian: SimplyWorks Switch, 75mm, Requires Receive 2 (Item 3-28)	Requires 3-28 - Wireless Receiver. Paper-based /Online Training recommended	
3-2alt1	Editmicro Global	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Jelly Beamer Twist Transmitter		

Item	Supplier	Specification	Product	Comment	Product Image
3-2alt2	Editmicro Global	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian iSwitch	Comprises 2 wireless switches and a receiver (Receive2)	
3-2alt3	Editmicro Global	Small assistive switch, wireless Small (<75mm), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian Simplyworks Switch Set	Must be paired with receiver	
3-3	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Pretorian Smoothie 125		
3-3alt1	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Big Buddy Button	alternative option - known for being robust	
3-3alt2	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Ablenet Big Red		
3-3alt3	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Accuratus X3P Foot Switch		

Item	Supplier	Specification	Product	Comment	Product Image
3-3alt4	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	GlassOuse Foot Switch		
3-3alt5	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	GlassOuse Press Switch (100g)		
3-3alt6	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	GlassOuse Press Switch (150g)		
3-3alt7	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology Disc Switch 50g		
3-3alt8	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology Dome Switch 150g		
3-3alt9	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology It-Switch (125mm)

3-3alt10	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology It-Switch (75mm)		
3-3alt11	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology Pressure Pad Switch		
3-3alt12	Editmicro Global	Large assistive switch Large (75mm+), durable, quality single switch compatible with assistive communication device via wired connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours.	Inclusive Technology Slimline Switch		
3-4	Editmicro Global	Large assistive switch, wireless Large (75mm+), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours	Pretorian SimplyWorks 125	Must be paired with receiver	
3-4alt1	Editmicro Global	Large assistive switch, wireless Large (75mm+), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours	Ablenet Big Beamer Transmitter	Must be paired with receiver	
3-4alt2	Editmicro Global	Large assistive switch, wireless Large (75mm+), durable, quality single switch compatible with assistive communication device via wireless connection. Activation by pressure anywhere on top surface. Assists people with moderate to severe upper extremity and motor disabilities. Must provide audible and tactile feedback. Must have mechanisms to prevent slipping and allow for secure mounting. Available in several bright colours	Pretorian iSwitch		

Item	Supplier	Specification	Product	Comment	Product Image
3-5	Editmicro Global	Head/cheek assistive switch Durable single switch compatible with assistive communication device, enables head and/or cheek activation Must be smooth and soft Must have a reliable mechanism for fastening to a pillow or wheelchair cushion Must provide audible and tactile feedback.	Ablenet Pillow Switch	This product meets the specs exactly	
3-5	Inclusive Solutions	Head/cheek assistive switch Durable single switch compatible with assistive communication device, enables head and/or cheek activation Must be smooth and soft Must have a reliable mechanism for fastening to a pillow or wheelchair cushion Must provide audible and tactile feedback.	Glassouse: Pillow Switch	Paper-based /Online Training recommended	
3-5alt1	Editmicro Global	Head/cheek assistive switch Durable single switch compatible with assistive communication device, enables head and/or cheek activation Must be smooth and soft Must have a reliable mechanism for fastening to a pillow or wheelchair cushion Must provide audible and tactile feedback.	GlassOuse Pillow Switch	does not have a fastening clip, requires mounting - works together with Glassouse	
3-5alt2	Editmicro Global	Head/cheek assistive switch Durable single switch compatible with assistive communication device, enables head and/or cheek activation Must be smooth and soft Must have a reliable mechanism for fastening to a pillow or wheelchair cushion Must provide audible and tactile feedback.	Kajo Button Soft Switch		
3-6	Editmicro Global	Light touch assistive switch Durable single switch, activated through light touch; Must provide audible and tactile feedback; Activating force 10-11g; Requires compatible mounting plate	Ablenet Microlight Switch		
3-6	Inclusive Solutions	Light touch assistive switch Durable single switch, activated through light touch; Must provide audible and tactile feedback; Activating force 10-11g; Requires compatible mounting plate	Glassouse: Touch Switch	Provides Auditory (Beep) and Visual (Light) feedback. Lightly touch to activate. No 'click' tactile feedback.	

Item	Supplier	Specification	Product	Comment	Product Image
3-6alt	Editmicro Global	Light touch assistive switch Durable single switch, activated through light touch; Must provide audible and tactile feedback; Activating force 10-11g; Requires compatible mounting plate	Glassouse G-Switch Series GS08 Touch switch		
3-7	Editmicro Global	Proximity assistive switch, 10mm Compact, sensitive, wired proximity sensor switch that is activated when a body part is within 10mm of the switch top. Must have visual and auditory feedback. Magnetic mounting. Packaging: Each	Ablenet Little Candy Corn Proximity Switch		
3-7	Inclusive Solutions	Proximity assistive switch, 10mm Compact, sensitive, wired proximity sensor switch that is activated when a body part is within 10mm of the switch top. Must have visual and auditory feedback. Magnetic mounting. Packaging: Each	Glassouse: Proximity Switch 96mm diam.	Provides Auditory (Beep) and Visual (Light) feedback. Hover 4-10cm away to activate.	
3-8	Editmicro Global	Proximity assistive switch, 25mm Large, sensitive, wired proximity sensor switch that is activated when a body part is within 25mm of the switch top, approximately 90mm wide activation surface. Must have visual and auditory feedback. Magnetic mounting.	Ablenet Big Candy Corn Proximity Switch		
3-10	Editmicro Global	Joystick assistive switch, 5-way Durable joystick compatible with optional mounting plate, allows 4 switches to be activated via 4 joystick directions. 5th switch is activated by pressing down the joystick. Must provide audible and tactile feedback; Mounting via compatible mounting plate; requires optional 9-pin serial interface	Ablenet Mini Joystick with Push	Must be used with Hitch 2 as interface.	
3-11	Editmicro Global	Squeeze/pinch assistive switch Durable switch compatible with optional mounting plate. Tube shaped switch activated by squeeze and/or pinch. Allows user approximately 2 seconds to release grip in order to prevent switch latching. Soft to touch. Tactile feedback. Mounting via compatible mounting plate	Ablenet Grasp Switch		

Item	Supplier	Specification	Product	Comment	Product Image
3-12	Editmicro Global	Bend assistive switch Durable switch compatible with optional mounting plate. A switch activated by bending in either direction. Soft to touch. Moisture resistant. Tactile feedback. Mounting via compatible mounting plate	Ablenet Wobble Switch		
3-12alt1	Editmicro Global	Bend assistive switch Durable switch compatible with optional mounting plate. A switch activated by bending in either direction. Soft to touch. Moisture resistant. Tactile feedback. Mounting via compatible mounting plate	Inclusive Technology Access Wobble Switch		
3-12alt2	Editmicro Global	Bend assistive switch Durable switch compatible with optional mounting plate. A switch activated by bending in either direction. Soft to touch. Moisture resistant. Tactile feedback. Mounting via compatible mounting plate	Inclusive Technology FlexAble Switch	Includes mounting (Gooseneck and plate)	
3-14	Inclusive Solutions	Low-profile assistive switch Durable single switch compatible with assistive communication device. Activation of switch done by pressure application anywhere on switch's top surface. Switch Low profile surface angled towards the user with limited movement to allow for easier pressing.	Pretorian: USB Switch	Paper-based /Online Training recommended	
3-14alt3	Editmicro Global	Low-profile assistive switch Durable single switch compatible with assistive communication device. Activation of switch done by pressure application anywhere on switch's top surface. Switch Low profile surface angled towards the user with limited movement to allow for easier pressing.	Pretorian Smoothe 125		
3-15	Editmicro Global	Pneumatic assistive switch Durable switch compatible with assistive communication device. Activated through puff of the lips or sip, internal saliva trap for cleaning. Mounting required.	Ablenet Imperium Sip and Puff Switch	Includes mounting and clamp	

Item	Supplier	Specification	Product	Comment	Product Image
3-15	Inclusive Solutions	Pneumatic assistive switch Durable switch compatible with assistive communication device. Activated through puff of the lips or sip, internal saliva trap for cleaning. Mounting required.	Glassouse: Puff Switch	Paper-based /Online Training recommended	
3-15alt1	Editmicro Global	Pneumatic assistive switch Durable switch compatible with assistive communication device. Activated through puff of the lips or sip, internal saliva trap for cleaning. Mounting required.	GlassOuse Puff Switch	Alternative option designed to work with Glassouse assistive device mouse input	
3-15alt2	Editmicro Global	Pneumatic assistive switch Durable switch compatible with assistive communication device. Activated through puff of the lips or sip, internal saliva trap for cleaning. Mounting required.	Quha Pufo +	Alternative option, designed to work with Quha assistive device mouse input	
3-16	Editmicro Global	Bite assistive switch Switch with silicone cover activated via bite action	GlassOuse Bite Switch		
3-16	Inclusive Solutions	Bite assistive switch Switch with silicone cover activated via bite action	Glassouse: Bite Switch	Paper-based /Online Training recommended	
3-17	Editmicro Global	USB adapter for assistive switch Adapter cable to plug switches into a computer through the USB port Supports connection of one or two switches Standard 3.5mm switch inputs	Pretorian Simple Switch Interface

RT275-2020: Technical Summary - Category 6

Feeding and oral motor

Item	Supplier	Specification	Product	Comment	Product Image
6-1	Shelelela Medical	Orthodontic teat for cleft palate Latex teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Baglet covers cleft in the palate preventing air escape and pressure loss No feeding hole (to be custom made when issued by therapist depending on position of cleft)	NUK 068101	TEAT WITH A SCREWRING TO FIT REGULAR NECK BOTTLE MIN ORDER QTY 6 UNITS	
6-2	Shelelela Medical	Teat for premature infants For infants weighing less than 1750 g Latex teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Designed to stimulate and train the sucking reflex Size is smaller than standard teat for 0-6 months	NUK 069391	TEAT WITH A SCREWRING TO FIT REGULAR NECK BOTTLE MINORDER QTY 6 UNITS	
6-3	Shelelela Medical	Cleft lip/palate nurser Latex free/BPA free. Made of low density polyethylene Non-Disposable and sterilizable Flattened oval shaped bottle Pliable bottle that aids milk flow Longer than normal teat Cross cut feeding hole on teat Size Capacity of 177 ml with 15ml graduations Packaging: box of 6	MEADE JOHNSON MJ045422.	MIN QTY ORDER 6 UNITS	
6-5	AMHT	System for Supplemental Nursing System used for feeding babies with supplement or expressed breast milk at the breast. Simulates experience of breastfeeding Used for premature babies, weak and slow weight gaining infants, building milk supply, relactation and adopted children. CE approved or equivalent Consists of the following parts: Neck Cord; Bisphenol "A" (BPA)-free Bottle; Three appropriately sized tubing; Valve holder; Attachment ring; Cover for the bottle to prevent spillage and for storage Two rolls of hypoallergenic paper tape All parts autoclavable Dimensions: 150 ml bottle with 10 ml graduations Packaging: per set	Mabela	Supplier Local	

Item	Supplier	Specification	Product	Comment	Product Image
6-6	Shelelela Medical	Pacifiers - premature soother For infants weighing less than 1750 g Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Made of natural rubber latex BPA, BPS and phthalate free Designed to stimulate and train the sucking reflex under therapist supervision Size is smaller than standard teat for 0-6 months	NUK068711	MIN QTY ORDER 6 UNITS	
6-7	Shelelela Medical	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of latex Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 0-6 months	NUK445554	LATEX GENIUS MIN QTY ORDER 10 UNITS	
6-8	AMHT	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of silicone Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 0-6 months	Twistshake	Suppliers Local	
6-8	Shelelela Medical	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of silicone Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 0-6 months	NUK445582	MIN QTY ORDER 10 UNITS	
6-9	Shelelela Medical	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of latex Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 6-12 months	NUK445556	MIN QTY ORDER 10 UNITS	
6-10	AMHT	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of silicone Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 6-12 months	Twistshake	Suppliers Local	

Item	Supplier	Specification	Product	Comment	Product Image
6-10	Shelelela Medical	Pacifiers for infants Designed to stimulate and train the sucking reflex Made of silicone Teat shaped to fit oral cavity and to simulate form and function of the mother's breast when feeding Size: 6-12 months	NUK445582	MIN QTY ORDER 10 UNITS	
6-17	Shelelela Medical	Teat for Premature Babies Latex orthodontic teat for use with regular-necked bottle	NUK096026	MEDIUM HOLE MIN QTY ORDER 10 UNITS	
6-20	Shelelela Medical	Teat Silicone orthodontic teat for use with wide-necked bottle. Size 0 to 3 months	NUK445186 NUK445190 NUK445194	SMALL, MEDIUM, LARGE HOLE. ALL NUK TEATS ARE ANTI COLIC MIN QTY ORDER 10 UNITS	
6-35	Shelelela Medical	Teat Silicone orthodontic teat for use with wide-necked bottle. Size 3 to 6 months	NUK445186 NUK445190 NUK445194	SMALL MEDIUM LARGE HOLE. ALL NUK TEATS ANTI COLIC MIN QTY ORDER 10 UNITS	
6-50	Shelelela Medical	Teat Silicone orthodontic teat for use with wide-necked bottle. Size 6 to 12 months	NUK445188 NUK445192 NUK445196	SMALL MEDIUM LARGE HOLE ALL NUK TEATS ANTI COLIC MIN QTY ORDER 10 UNITS	
6-53	Shelelela Medical	Teat Silicone cross-cut orthodontic teat for with wide-necked bottle Size 6 to 12 months	NUK096290	LARGE HOLE MIN QTY ORDER 10 UNITS	

Item	Supplier	Specification	Product	Comment	Product Image
6-66	Shelelela Medical	Feeding Bottle Wide-necked plastic baby bottle, BPA-free Size: 125-150ml	NUK00322	AUTOCLAVABLE, INCLUDES CAP,DISC,SCREW RING MIN QTY ORDER 50 UNITS	
6-67	Shelelela Medical	Feeding Bottle Wide-necked plastic baby bottle, BPA-free Size: 250ml	NUK020401	DISPOSABLE, INCLUDES CAP,DISC, SCREWRING MIN QTY ORDER 50 UNITS	
6-83	AMHT	Nipple shield Nipple shield with small dome: thin silicone sheet with perforated dome to fit over nipple, to protect the nipple and assist with latching: 16-18mm dome length.	Madela	Supplier Local	
6-84	AMHT	Nipple shield Nipple shield with medium dome: thin silicone sheet with perforated dome to fit over nipple, to protect the nipple and assist with latching: 19-22mm dome length	Madela	Supplier Local	
6-84	Shelelela Medical	Nipple shield Nipple shield with medium dome: thin silicone sheet with perforated dome to fit over nipple, to protect the nipple and assist with latching: 19-22mm dome length	NUK045274	WITH BOX. MIN QTY ORDER 10 UNITS	
6-85	AMHT	Nipple shield Nipple shield with large dome: thin silicone sheet with perforated dome to fit over nipple, to protect the nipple and assist with latching: 23-26mm dome length	Madela	Supplier Local	

Item	Supplier	Specification	Product	Comment	Product Image
6-87	Speechlab	<p>Oral Airflow Device</p> <p>Horn that sounds off with both inhalation and exhalation, helping patients with minimal airflow to progress to more complex horns Allows for the instruction of volitional control of oral airflow for blowing as a component of phoneme imitation</p> <p>Wide mouth opening, large support handle for easy control, made of 3 different coloured durable plastics</p> <p>Packaging: Each</p>	Talktools Pre- Heirarchy Horn	single	
6-88	Speechlab	<p>Nasal Airflow Device</p> <p>Flute that covers the nose and mouth and sounds off on blowing through the nose and mouth</p> <p>For the facilitation of nasal airflow</p> <p>An integral component of velo-pharyngeal control and speech clarity development</p> <p>Made from flexible and durable plastic in variety of colours</p> <p>Packaging: Pack of 3</p>	Talktools Nose Flutes	Pack of 3	
6-89	Speechlab	<p>Oral Airflow Device</p> <p>Musical instrument that adds a "buzzing" timbral quality to a player's voice when the player vocalises into it</p> <p>Helps transitions oral airflow into easy onset vocalisations for patients with velo-pharyngeal insufficiency, voice disorders, and fluency disorders Made of durable plastic</p> <p>Packaging: Pack of 6 in assorted colours</p>	Talktools Kazoo	Pack of 6	
6-90	Speechlab	<p>Oral Airflow Device Kit</p> <p>Horns to be used in a hierarchial order, designed to normalise oral musculature, correct articulation errors, improve abdominal grading and speech clarity A prerequisite for working on oral-nasal contrasts</p> <p>Each horn's position in the hierarchy is specifically based on its relative difficulty</p> <p>Made of durable plastic with some metal parts</p> <p>Packaging: Set of 12 unique horns</p>	TalkTools Complete Horn Set	Kit	
6-91	Speechlab	<p>Oral Motor Control and Range Kit</p> <p>Combination of specialised straws to be used in a hierarchial order, for the promotion of tongue retraction and controlled tongue movements. For the promotion of jaw-lip-tongue dissociation through twelve stages of development</p> <p>Made of flexible and durable plastic</p> <p>Packaging: Set of a variety of 11 specialised straws</p>	Talktools Complete Straw Set	Kit	
6-92	Speechlab	<p>Vibrator and Oral Foam Swabs</p> <p>Hand-held vibrator with attached replaceable toothettes, battery-operated</p> <p>Provides a technique for promoting awareness of the oral cavity, to relax "fixing" and to aid in the diagnosis of oral sensitivity</p> <p>Packaging: Set including 20 toothettes</p>	Talktools Vibrator & Toothette Set	Set	

Item	Supplier	Specification	Product	Comment	Product Image
6-93	Allenco Medical	Oral Foam Swabs For increasing or decreasing oral sensitivity prior to feeding, oral exercise, or speech sound production work Foam swabsticks for attachment to hand-held vibrator, soft, secure foam heads with distinct ridges. Packaging: 250 per pack	Avanos - 12240		
6-93	Biosurge	Oral Foam Swabs For increasing or decreasing oral sensitivity prior to feeding, oral exercise, or speech sound production work Foam swabsticks for attachment to hand-held vibrator, soft, secure foam heads with distinct ridges. Packaging: 250 per pack	Avanos - Ref: 12240	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
6-93	Speechlab	Oral Foam Swabs For increasing or decreasing oral sensitivity prior to feeding, oral exercise, or speech sound production work Foam swabsticks for attachment to hand-held vibrator, soft, secure foam heads with distinct ridges. Packaging: 250 per pack	Talktools Toothette Maxi Pack	Pack of 250	
6-94	Speechlab	Intraoral Massager Safe tool for initial oral-motor therapy and stimulation that can be used inside and outside the mouth on babies, children and adults to improve oral-motor awareness Soft, nubby brush tips can stimulate, massage, or desensitise gums, lips, tongues, and cheeks that would in turn assist sucking and swallowing for feeding, reduce hypersensitivity and ease oral defensiveness in individuals who do not like the feel of food, toothbrushes, straws, and other objects in their mouths Thick easy to grip handle, textured tip with soft rubber flanges Packaging: Each	TalkTools Intraoral Massager	Pack of 3	
6-95	Speechlab	Finger intraoral massager Finger cuff that fits on adult finger to teach motor planning for chewing utilising the phasic bite Used to stimulate lateral tongue reflex and oral sensory awareness Made of soft rubber, latex free Packaging: Set of 3	Talktools Finger Cuff	Pack of 3	
6-96	Speechlab	Sensory Bean Bags To be used as a means to benefit patients with tactile defensive behaviour To be used with patients who are hypersensitive to touch on or near the face as well as to stimulate patients who are hyposensitive in the facial area To normalise sensitivity on body and face by introducing varying textures in a controlled way Bean shaped bags of varying textures including silky, furry, bumpy and scratchy Packaging: Set of 8	Talktools Sensory Bean Bag Kit	Kit	

Item	Supplier	Specification	Product	Comment	Product Image
6-97	Speechlab	<p>Tubes for jaw closure and lip rounding</p> <p>To be used in a graduated program to teach volitional jaw closure and lip rounding which is beneficial to then progress to straw drinking and speech development, particularly for use with patients with cerebral palsy or traumatic brain injury</p> <p>Plastic tubes</p> <p>Packaging: Set of 6 of varying and specific dimensions</p>	TalkTools Progressive Jaw Closure Tubes	Set	
6-98	Speechlab	<p>Spirometer</p> <p>Use to target abdominal grading and controlled airflow</p> <p>Does not produce sound therefore is a good tool for patients who exhibit auditory defensiveness</p> <p>For patients with velo-pharyngeal incompetence and for those who need visual cues</p> <p>To help build intraoral pressure and controlled airflow for adults as well as children which then results in longer utterances, increased breath support and coordination of tongue retraction with open mouth posture required for vowel sounds</p> <p>Dial to adjust level of difficulty, includes two mouthpieces: one flat and one round, includes nose clip set</p> <p>Packaging: Per set</p>	Talktools Spirometer	Set	
6-99	Speechlab	<p>Oral Vibration Tool</p> <p>Vibrating hand-held tool used for oral-motor exercises and sensory stimulation</p> <p>Used to provide input to the lips, tongue, cheeks and jaw. This tactile input helps increase oral awareness and tone, decrease oral defensiveness, and encourage texture acceptance Recommended to be used under the supervision of a speech pathologist</p> <p>Used with a variety of tips to provide a vast range of sensory stimulations</p> <p>Handle made of durable, textured aluminium, comes with one probe tip made of sturdy medical grade plastics</p> <p>Packaging: Each</p>	Talktools Sensi with Blue Tip	Enhanced design and function, multispeed operation with pulse and memory feature and made of softer material offering array of therapy options and uses standard AAA batteries. Has 20 interchangeable tips. Also compatible with old tips. Series of tips listed: 6-183 to 6-201

6-134	Speechlab	<p>Oral Motor kit</p> <p>Kit consisting of 1) a horn that sounds off with both inhalation and exhalation, 2) set of 8 bean shaped bags of avrying textures including skilky, furry, bumpy and scartchy, 3) a drinking cup with two handles and two twist-off recessed lids, made of hard reusable plastic, 4) flavoured tongue depressors, 5) a hand-held vibrator with attached replaceabe toothettes, including batteries and 20 toothettes, 6) buttons with string to target increased lip strength, 7) jaw grading bite tool constructed from latex-free, durable, hard resistant material. 8) jaw grading bite tool constructed from latex-free, durable sensory friendly material, 9) tongue tip lateralisation and elevation tools, 10) set of 4 different kinds of biting tubes of different shapes, hardness and softness, 11) Book - "Oral Placement Therapy for Speech Clarity and Feeding, 12) Book - "The Homework Book", 13) set of 6 platic tubes for jaw closure and lip rounding, 14) jaw exerciser kit, 15) tubes to blow on that can be extended or collapsed, 16) oral motor control and range kit, consisting of a combination of 11 specialised straws to be used in a hierarchial order, made of flexible and durable plastic, 17) Oral airflow device kit, consisting of 12 horns made of durable plastic with some metal parts to be used in a hierarchial order, 18) mini mirror with case, 19) hand puppet, 20) Bottle to cup feed transitioner made from pliable bottle that allows fluid to flow up the straw when squeezeed gently, including spill proof lid, made of soft latex free flexible plastics, in a set supplied with one replaceable flexi plastic straw pre-cut to a length suitable for use in the specific bottle, 21) bubble kit. To come in durable toolbox.</p> <p>Packaging: Each</p>	TalkTools Oral Motor Kit	Complete Kit	
6-135	Speechlab	<p>Oral Motor kit</p> <p>Kit consisting of 1) a horn that sounds off with both inhalation and exhalation, 2) set of 8 bean shaped bags of avrying textures including skilky, furry, bumpy and scartchy, 3) a drinking cup with two handles and two twist-off recessed lids, made of hard reusable plastic, 4) a hand-held vibrator with attached replaceabe toothettes, including batteries and 20 toothettes, 5) jaw grading bite tool constructed from latex-free, durable, hard resistant material. 6) jaw grading bite tool constructed from latex-free, durable sensory friendly material, 7) set of 4 different kinds of biting tubes of different shapes, hardness and softness, 8) Book - "Oral Placement Therapy for Speech Clarity and Feeding, 9) Book - "The Homework Book", 10) tubes to blow on that can be extended or collapsed, 11) oral motor control and range kit, consisting of a combination of 11 specialised straws to be used in a hierarchial order, made of flexible and durable plastic, 12) Oral airflow device kit, consisting of 12 horns made of durable plastic with some metal parts to be used in a hierarchial order, 13) Bottle to cup feed transitioner made from pliable bottle that allows fluid to flow up the straw when squeezeed gently, including spill proof lid, made of soft latex free flexible plastics, in a set supplied with one replaceable flexi plastic straw pre-cut to a length suitable for use in the specific bottle, 14) bubble kit. To come in durable case.</p> <p>Packaging: Each</p>	TalkTools Oral Motor Kit - Sensory Stimulation	Complete Kit SAME ITEM AS 6-134	

Item	Supplier	Specification	Product	Comment	Product Image
6-136	Speechlab	<p>Jaw Grading Bite Tools</p> <p>To promote symmetrical jaw strength, jaw stability, and grading for patients with weak jaw musculature evidenced during speech sound production or feeding (i. e., reduced mobility, sliding, or jutting)</p> <p>For use with dysarthric apraxic/dyspraxic patients in order to teach jaw position and muscle memory for standard speech sound production constructed from latex-free and durable, FDA-approved materials, hard resistant material</p> <p>Packaging: Two sets of 6 per pack</p>	TalkTools Jaw Grading Bite Blocks Hard - Red	Set	
6-137	Speechlab	<p>Jaw Grading Bite Tools</p> <p>To promote symmetrical jaw strength, jaw stability, and grading for patients with weak jaw musculature evidenced during speech sound production or feeding (i. e., reduced mobility, sliding, or jutting)</p> <p>For use with dysarthric apraxic/dyspraxic patients in order to teach jaw position and muscle memory for standard speech sound production. For patients who need extra sensory input and therefore tolerate a softer more pliable object</p> <p>Dimensions: constructed from latex-free and durable, FDA-approved materials, sensory friendly material</p> <p>Packaging: Two sets of 6 per pack</p>	Talktools Jaw Grading Bite Blocks Soft - Purple	Set	
6-138	Speechlab	<p>Bite Tools</p> <p>Set of different biting instruments all of different dimensions, to improve chewing skills</p> <p>To teach jaw grading for improved speech clarity and teach children and adults how to chew foods for improved feeding safety and nutritional intake To be used in a hierarchy of increasing difficulty for development of jaw stability</p> <p>Latex free and lead free</p> <p>Packaging: A set of 4 different kinds of biting tubes of different shapes and hardness and softness</p>	Talktools Bite Tube Set of 4	Set	
6-139	Speechlab	<p>Chewing Tool</p> <p>Provide a resilient, non-food, chewable surface for practicing biting and chewing skills and to develop jaw motion for biting and chewing skills. For use on children and adults as a safe and effective tool for practising biting and chewing skills</p> <p>For use in treatment of individuals who are developing initial oral motor skills, or rehabilitating the jaw after surgery, trauma or stroke Made from flexible durable plastic that is latex free and lead free, available in different colours of 4 different shapes and of different hardness and softness</p> <p>Packaging: Set of 4</p>	TalkTools Chewy Tube Pack of 4	4 Pack	
6-142	Speechlab	<p>Sensory Chewing Tool</p> <p>An oral motor chew tool</p> <p>The textures simulate the feel of actual food for realistic non-food chewing practice and also add extra tactile sensation to the lips, cheeks, gums, and tongue to help desensitise the mouth, and decrease oral defensiveness/aversions, and transition individuals with sensory issues from pureed to textured foods; Made out of soft, chewy, resilient material with three different surfaces to chew on: one smooth, one with circular bumps, and one with rectangular bumps</p> <p>Packaging: each</p>	Talktools Beckmans Tri Chew Soft & Hard	2 Pack

7-1	Stratmed	Cleaning brush for voice prosthesis (compatible with prosthesis) For cleaning inside of the voice prosthesis without removing it from the standard te-fistula. Washable and re-usable for several weeks size: standard size, suitable for use in voice prostheses from 4.5-10mm diameter Packaging: 6 brushes per pack.	7204 - Provox Brush for 4.5-10mm prosthesis - pack of 6	Price per single	
7-3	Stratmed	Indwelling voice prosthesis Sterile, 8mm, 22.5fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8147 - Provox Vega Puncture set - 8mm, 22.5Fr		
7-4	Stratmed	Indwelling voice prosthesis Sterile, 10mm, 22.5fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8148 - Provox Vega Puncture set - 10mm, 22.5Fr		
7-5	Stratmed	Indwelling voice prosthesis Sterile, 12.5mm, 22.5fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8149 - Provox Vega Puncture set - 12,5mm, 22.5Fr		
7-6	Stratmed	Indwelling voice prosthesis Sterile, 8mm, 20fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8144 - Provox Vega Puncture set - 8mm, 20Fr		
7-7	Stratmed	Indwelling voice prosthesis Sterile, 10mm, 20fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8145 - Provox Vega Puncture set - 10mm, 20Fr		

Item	Supplier	Specification	Product	Comment	Product Image
7-8	Stratmed	Indwelling voice prosthesis Sterile, 12.5mm, 20fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8146 - Provox Vega Puncture set - 12,5mm, 20Fr		
7-9	Stratmed	Indwelling voice prosthesis Sterile, 8mm, 17fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8140 - Provox Vega Puncture set - 8mm, 17Fr		
7-10	Stratmed	Indwelling voice prosthesis Sterile, 10mm, 17fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8141 - Provox Vega Puncture set - 10mm, 17Fr		
7-11	Stratmed	Indwelling voice prosthesis Sterile, 12.5mm, 17fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8142 - Provox Vega Puncture set - 12,5mm, 17Fr		
7-12	Stratmed	Indwelling voice prosthesis Sterile, 15mm, 17fr. Silicone prosthesis with one-way, low airflow resistance flap valve and puncture set, designed for retrograde primary placement within tracheoesophageal fistula, for voice restoration post laryngectomy	8143 - Provox Vega Puncture set - 15mm, 17Fr		
7-13	Stratmed	Indwelling voice prosthesis 4mm, 22.5fr. Silicone prosthesis with one-way, low airflow resistance flap valve, preloaded inside the inserter, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8282 - Provox Vega with inserter - 4mm, 22,5Fr		
7-14	Stratmed	Indwelling voice prosthesis 6mm, 22.5fr. Silicone prosthesis with one-way, low airflow resistance flap valve, preloaded inside the inserter, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8283 - Provox Vega with inserter - 6mm, 22,5Fr

Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8292 - Provox Vega XtraSeal with enlarged esophageal flange - 12,5mm, 17Fr		
7-69	Stratmed	Indwelling voice prosthesis 15mm, 17fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8293 - Provox Vega XtraSeal with enlarged esophageal flange - 15mm, 17Fr		
7-70	Stratmed	Indwelling voice prosthesis 4mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8294 - Provox Vega XtraSeal with enlarged esophageal flange - 4mm, 20Fr		
7-71	Stratmed	Indwelling voice prosthesis 6mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8295 - Provox Vega XtraSeal with enlarged esophageal flange - 6mm, 20Fr		

Item	Supplier	Specification	Product	Comment	Product Image
7-72	Stratmed	Indwelling voice prosthesis 8mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8296 - Provox Vega XtraSeal with enlarged esophageal flange - 8mm, 20Fr		
7-73	Stratmed	Indwelling voice prosthesis 10mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8297 - Provox Vega XtraSeal with enlarged esophageal flange - 10mm, 20Fr		
7-74	Stratmed	Indwelling voice prosthesis 12.5mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8298 - Provox Vega XtraSeal with enlarged esophageal flange - 12,5mm, 20Fr		
7-75	Stratmed	Indwelling voice prosthesis 15mm, 20fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8299 - Provox Vega XtraSeal with enlarged esophageal flange - 15mm, 20Fr		
7-76	Stratmed	Indwelling voice prosthesis 4mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8300 - Provox Vega XtraSeal with enlarged esophageal flange - 4mm, 22,5Fr		
7-77	Stratmed	Indwelling voice prosthesis 6mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8301 - Provox Vega XtraSeal with enlarged esophageal flange - 6mm, 22,5Fr		

Item	Supplier	Specification	Product	Comment	Product Image
7-78	Stratmed	Indwelling voice prosthesis 8mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8302 - Provox Vega XtraSeal with enlarged esophageal flange - 8mm, 22,5Fr		
7-79	Stratmed	Indwelling voice prosthesis 10mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8303 - Provox Vega XtraSeal with enlarged esophageal flange - 10mm, 22,5Fr		
7-80	Stratmed	Indwelling voice prosthesis 12.5mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8304 - Provox Vega XtraSeal with enlarged esophageal flange - 12,5mm, 22,5Fr		
7-81	Stratmed	Indwelling voice prosthesis 15mm, 22.5fr. Silicone prosthesis with enlarged esophageal flange to manage leakage around voice prosthesis, with one-way, low airflow resistance flap valve, with insertion device, designed for anterograde secondary placement within a tracheo-esophageal fistula, for voice restoration post laryngectomy	8305 - Provox Vega XtraSeal with enlarged esophageal flange - 15mm, 22,5Fr		
7-82	Stratmed	Heat moisture exchanger (standard) for inactive patients For laryngectomy, provides for sufficient moisture retention to humidify air breathed in by laryngectomy patients, compatible with adhesive laryngectomy button, and laryngectomy tube. (Packaging Requirements: pack of 30)	7290 - Provox XtraMoist HME - pack of 30	Price per single	
7-82alt	Allenco Medical	Heat moisture exchanger (standard) for inactive patients For laryngectomy, provides for sufficient moisture retention to humidify air breathed in by laryngectomy patients, compatible with adhesive laryngectomy button, and laryngectomy tube. (Packaging Requirements: pack of 30)	Tracoe - 640-S	Box of 50 - Offer 2	

Item	Supplier	Specification	Product	Comment	Product Image
7-83	Stratmed	Heat moisture exchanger (high flow) for active patients For laryngectomy, provides for sufficient moisture retention to humidify air breathed in by laryngectomy patients, compatible with adhesive laryngectomy button, and laryngectomy Packaging Requirements: Pack of 30	7291 - Provox XtraFlow HME - pack of 30	Price per single	
7-84	Stratmed	Heat moisture exchanger (high moisture) for nighttime use For laryngectomy, provides for sufficient moisture retention to humidify air breathed in by laryngectomy patients, compatible with adhesive lary button, and laryngectomy tube. Packaging Requirements: pack of 30	8013 & 8014- Provox Luna adhesive and HME - pack of 30	Both Adhesive and HME included in the price	
7-85	Stratmed	Handsfree Voice Kit Used for laryngectomised patients to have hands free stoma occlusion and voicing Used in conjunction with voice prosthesis and compatible heat moisture exchanger (HME)	7760 - Provox FreeHands FlexiVoice Set		
7-90	Stratmed	Heat moisture exchanger Compatible with hands free cassette. Packaging Requirements: Pack of 30	7712 - Provox FreeHands HME Cassette - pack of 30	Price per single	
7-91	Allenco Medical	Tracheostomy cleaning brush Soft tipped, angled to accommodate bending angle of inner cannula, soft bristles to remove crusted secretions, size: 4.5-10mm diameter, 21cm length. Packaging requirement: 10 per pack	Tracoe - 938-A	Pack of 10	
7-91	Biosurge	Tracheostomy cleaning brush Soft tipped, angled to accommodate bending angle of inner cannula, soft bristles to remove crusted secretions, size: 4.5-10mm diameter, 21cm length. Packaging requirement: 10 per pack	Tracoe cleaning brush with wool tip. Ref :938-A	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	

Item	Supplier	Specification	Product	Comment	Product Image
7-91	Stratmed	Tracheostomy cleaning brush Soft tipped, angled to accommodate bending angle of inner cannula, soft bristles to remove crusted secretions, size: 4.5-10mm diameter, 21cm length. Packaging requirement: 10 per pack	7660 or 7661 - Provox Tube brush - 8 or 12mm, pack of 6	Price per single	
7-92	Allenco Medical	Electrolarynx device Battery-operated neck type device with oral adapter which produces vibrations to allow voicing for laryngectomy patients, hand-held, rechargeable unit, intra-oral attachment included	Romet		
7-92	Biosurge	Electrolarynx device Battery-operated neck type device with oral adapter which produces vibrations to allow voicing for laryngectomy patients, hand-held, rechargeable unit, intra-oral attachment included	ROMET Ref Code: R210	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-94	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 8/36: inner diameter: 9.5mm, outer diameter: 12mm.	7624 - Provox Larytube with ring - 8/36: inner diameter - 9,5mm, outer diameter - 12mm		
7-95	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 8/55 inner diameter: 9.5mm, outer diameter: 12mm.	7625 - Provox Larytube with ring - 8/55: inner diameter - 9,5mm, outer diameter - 12mm		
7-96	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 9/36: inner diameter: 10.5mm, outer diameter: 13.5mm.	7626 - Provox Larytube with ring - 9/36: inner diameter - 10,5mm, outer diameter - 13,5mm		
7-97	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 9/55: inner diameter: 10.5mm, outer diameter: 13.5mm.	7627 - Provox Larytube with ring - 9/55: inner diameter - 10,5mm, outer diameter - 13,5mm		

Item	Supplier	Specification	Product	Comment	Product Image
7-98	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 10/36: inner diameter: 12mm, outer diameter: 15mm.	7628 - Provox Larytube with ring - 10/36: inner diameter - 12mm, outer diameter - 15mm		
7-99	Stratmed	Ring laryngectomy tube Soft tube used to keep stoma of laryngectomy patient open. Compatible with HME system or hands-free system. 10/55: inner diameter 12mm, outer diameter 15mm,	7629 - Provox Larytube with ring - 10/55: inner diameter - 12mm, outer diameter - 15mm		
7-101	Stratmed	Sizer measuring device Compatible with voice prosthesis, reusable and sterilisable, allows the clinician to measure the length of the te fistula.	7270 - Provox Measure		
7-102	Stratmed	Sizer flanges Compatible with sizer, non sterile measuring flanges that attach to sizer. For single use. Size: standard. Packaging: pack of 5	7271 - Provox Measure Flanges		
7-103	Stratmed	Dilator Compatible with voice prosthesis, increase the diameter of the tracheoesophageal (te) fistula, size: standard.	7211 - Provox Dilator		
7-104	Stratmed	Flush/pipette Compatible with voice prosthesis, flush is a cleaning device that allows air or fresh water to be flushed into the lumen of the prosthesis, thereby helping to clean debris and crusts from the prosthesis. Size: standard.	8109 - Provox Flush		
7-105	Allenco Medical	Shower aid Compatible with adhesive, laryngectomy button and laryngectomy tube. Allows patient to shower safely without the risk of aspiration, size: standard.	Kapitex - PTA101	Pack of 10	

Item	Supplier	Specification	Product	Comment	Product Image
7-105	Biosurge	Shower aid Compatible with adhesive, laryngectomy button and laryngectomy tube. Allows patient to shower safely without the risk of aspiration, size: standard.	SpiroTec Universal Shower Aid Ref :PTA101	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-105	Stratmed	Shower aid Compatible with adhesive, laryngectomy button and laryngectomy tube. Allows patient to shower safely without the risk of aspiration, size: standard.	7260 - Provox Shower aid		
7-106	Allenco Medical	Oval adhesive (strong seal) Base plate adhesive, for deeper stoma, supports speaking hands free. Packaging: pack of 15	Kapitex - PTW700	Pack of 20	
7-106	Biosurge	Oval adhesive (strong seal) Base plate adhesive, for deeper stoma, supports speaking hands free. Packaging: pack of 15	SpiroTec secure Covex baseplate. Ref: PTW700	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-107	Allenco Medical	Oval adhesive (standard) Compatible with HME, standard oval adhesive for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	Kapitex - PTW100	Pack of 20	
7-107	Biosurge	Oval adhesive (standard) Compatible with HME, standard oval adhesive for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	SpiroTec Oval Fabric baseplate. Ref: PTW100	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-107	Stratmed	Oval adhesive (standard) Compatible with HME, standard oval adhesive for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	7254 - Provox FlexiDerm oval, pack of 20	Price per single	

Item	Supplier	Specification	Product	Comment	Product Image
7-108	Allenco Medical	Oval adhesive (sensitive) Compatible with HME, oval adhesive for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	Tracoe - 660	Pack of 20 - Offer 1	
7-108	Biosurge	Oval adhesive (sensitive) Compatible with HME, oval adhesive for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	Tracoe Medical Ref: 660	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-108	Stratmed	Oval adhesive (sensitive) Compatible with HME, oval adhesive for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	7256 - Provox Optiderm oval, pack of 20	Price per single	
7-108alt	Allenco Medical	Oval adhesive (sensitive) Compatible with HME, oval adhesive for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	Kapitex - PTW200	Pack of 20 - Offer 2	
7-110	Stratmed	Round adhesive (strong seal) Base plate adhesive, for flatter stoma, supports speaking hands free. Packaging: pack of 15	7265 - Provox XtraBase, pack of 20	Price per single	
7-111	Allenco Medical	Round adhesive (standard) Compatible with HME, standard round adhesive, for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	Kapitex - PTW101	Pack of 20	
7-111	Biosurge	Round adhesive (standard) Compatible with HME, standard round adhesive, for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	SpiroTec Round Fabric baseplate. Ref: PTW101	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	

Item	Supplier	Specification	Product	Comment	Product Image
7-111	Stratmed	Round adhesive (standard) Compatible with HME, standard round adhesive, for flat area around stoma which allows for the use of HME, size: standard. Packaging: pack of 20	7253 - Provox FlexiDerm round, pack of 20	Price per single	
7-112	Allenco Medical	Round adhesive (sensitive) Compatible with HME standard round adhesive, for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	Kapitex - PTW201	Pack of 20	
7-112	Biosurge	Round adhesive (sensitive) Compatible with HME standard round adhesive, for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	SpiroTec Sensitive round baseplate. Ref: PTW201	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-112	Stratmed	Round adhesive (sensitive) Compatible with HME standard round adhesive, for patients with sensitive skin which allows for the use of HME, size: standard (sensitive). Packaging: pack of 20	7255 - Provox OptiDerm round, pack of 20	Price per single	
7-113	Stratmed	Round adhesive (sensitive and strong) Compatible with HME, strong round adhesive, for patients with irregular neck around stoma which allows for the use of HME, size: standard (sensitive and strong). Packaging: pack of 15	7332 - Provox Optiderm Plus, pack of 20	Price per single	
7-114	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 12/8.	7671 - Provox LaryButton 12/8		
7-115	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 14/8.	7672 - Provox LaryButton 14/8		

Item	Supplier	Specification	Product	Comment	Product Image
7-116	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma dimension: 16/8.	7673 - Provox LaryButton 16/8		
7-117	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma dimension: 18/8.	7674 - Provox LaryButton 18/8		
7-118	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 12/18.	7685 - Provox LaryButton 12/18		
7-119	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 14/18.	7686 - Provox LaryButton 14/18		
7-120	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 16/18	7687 - Provox LaryButton 16/18		
7-121	Stratmed	Laryngectomy button, compatible with HME Short self-retaining silicone tracheal cannula skin that Maintains opening of tracheostoma and acts as holder for HME. Helps prevent shrinking of tracheostoma, dimension: 18/18	7688 - Provox LaryButton 18/18		

Item	Supplier	Specification	Product	Comment	Product Image
7-122	Allenco Medical	Unfenestrated laryngectomy tube, compatible with HME Soft silicone tube that maintains the opening of tracheostoma, compatible with HME or hands free system. Size: inner diameter 9.5mm, outer diameter 12mm, length 36mm dimension: 8/36	Tracoe - 580-08	Pack of 5	
7-122	Biosurge	Unfenestrated laryngectomy tube, compatible with HME Soft silicone tube that maintains the opening of tracheostoma, compatible with HME or hands free system. Size: inner diameter 9.5mm, outer diameter 12mm, length 36mm dimension: 8/36	Silicone Short Ref: 580-08	Please purchase as per MOQ Stated in Final Response Pricing spreadsheet	
7-123	Allenco Medical	Unfenestrated laryngectomy tube, compatible with HME Soft silicone tube that maintains the opening of tracheostoma, compatible with HME or hands free system. Size: inner diameter 9.5mm, outer diameter 12mm, length 55mm dimension: 8/55	Tracoe - 582-08	Pack of 5	
7-123	Biosurge	Unfenestrated laryngectomy tube, compatible with HME Soft silicone tube that maintains the opening of tracheostoma, compatible with HME or hands free system.
