

Documentation: SITA Product Certification Process

In order for any products to be certified, the brand **first** needs to get an OEM Agreement in place with SITA. If the MOA has already been registered (i.e. the OEM is in possession of a valid MOA signed by SITA), the product process can be started. Go to www.sita.co.za/prodcert.htm and download the following 2 documents:

- **Product Certification Checklist:** Excel file listing certification process requirements and deliverables

TCP Documents and Forms

- Product Certification Checklist
- OEM Memorandum of Agreement (MoA)
- OEM Checklist (for MoA)

TCP Reference

- Technology Certification Process
- Technology Certification Process - TCP (Presentation)
- Product Certification Process Diagram

Meeting Checklist: Product Certification

Product Brand: _____
 Technology Domain: _____
 Organisation representing brand (Proposed by SITA): _____
 Category/Item is a PCD that has associated label type: _____
 Product to be certified (Proposed by SITA): _____
